LOT BADGES & ACHIEVEMENTS — MASTER CODEX v38

THE DUNGEON DELVER — WORD TURN v28

```
■■■
```

THE DUNGEON DELVER — THEME OVERVIEW

Dungeons & Dragons was published in January 1974. In the fifty years since, its vocabulary has escaped the table and become a general-purpose language for describing human experience: the "boss fight," the "saving throw," the "hit points running low," the "level up." This is not metaphor inflation. These are genuinely useful descriptions of real experience.

The Dungeon Delver engine activates when a user writes in the vocabulary of the tabletop: not as game jargon but as self-understanding. The dungeoneer who logs "I'm running on fumes — hit points low, need a long rest" has described their state with precision, humor, and the embedded knowledge that rest is recovery, not failure. The player who writes "I finally leveled up — the XP from this year of work just clicked" has named growth through earned familiarity with the mechanism. The practice is the dungeon. The journal is the campaign log. The self is the character sheet.

Gary Gygax and Dave Arneson gave the world a vocabulary for collaborative imagination. The Dungeon Delver engine is a claim that this vocabulary has self-care utility — that the RPG table, at its best, was always a place where people practiced naming their fears, mapping their inner landscape, rolling for outcomes they could not control, and returning to the table next week regardless of what happened. That is the practice.

COMPLETE NEW BADGE REGISTRY — v38 ADDITIONS

Word Turn v28 (The Dungeon Delver)

```
nat_twenty          ●·20    RARE      — "critical success/scored a critical/perfect execution/
                                        rolled perfectly" detected
saving_throw        ■·●·■   UNCOMMON  — "saving throw/made the save/resist the pull/
                                        dodged the blow" detected
level_up_check      ↑·●     COMMON    — "leveled up/gained experience/next level/
                                        character growth/upgraded my" detected

IMPLEMENTATION NOTES

New functions in easter-eggs.ts (v38 session)

```
// v28 Dungeon Delver behavioral
checkDungeonSession(journalText): BadgeType | null   // 3+ v28 words in one entry
checkMarathonQuest(journalText): BadgeType | null     // 750+ words
checkMidnightCampaign(): BadgeType | null             // check-in 22:00–22:59

// v25 secret boss — Dragon's Vault
checkDragonVault(journalText): BadgeType[]            // Tolkien/Gygax/Smaug triggers
```

Wire-up guide for runJournalEasterEggs() / runCheckInEasterEggs()

Add these calls to the appropriate runners:

- Journal saves: checkDungeonSession, checkMarathonQuest, checkDragonVault

- Check-in events: checkMidnightCampaign

API stats fields consumed by Mastery Tier v28

- stats.distinctCheckInDays — integer, distinct calendar days with check-in (the_grand_delver: >= 1100)

- stats.totalJournalWords — integer, cumulative word count (arcane_library: >= 250,000)

- stats.signupDate — ISO date string (ancient_guild: >= 6 years)

CUMULATIVE WORD TURN ENGINE TABLE (v1–v28)

```
Engine Version Theme Word Turn Badges
v1 v1 Core Water 12 badges
v2 v2 Seasonal Signal 12 badges
v3 v3 Architecture 12 badges
v4 v4 Mountain / Earth 12 badges
v5 v5 Storm / Weather 12 badges
v6 v6 Fire / Energy 12 badges
v7 v7 Tech / Digital 12 badges
v8 v8 Space / Cosmos 12 badges
