BADGE LORE

puzzle_solved ■·■·■

- The puzzle is the moment before understanding. You are working it.
- The pieces are on the table. Something in you already knows the shape.
- The puzzle is solved when you stop doubting that.

portal_open ■→■

- A portal is a threshold you enter differently than you leave.
- The other side is the same space, changed by the passing.
- You are the portal. You contain the transition.

chamber_cleared ■■■■■

- The chamber is controlled difficulty. Someone designed it to be solvable.
- Every day is a test chamber. It was built for you to pass.

recursion_loop ■·■·■

- Recursion terminates when it reaches the base case.
- Identify the base case. What is the thing that, when you reach it, the loop ends?
- That is the answer.

paradox_found ×·■·×

- The paradox is not an error. It is information.
- It marks the boundary of a model that needs updating.
- The map is wrong. The territory is still there. Update the map.

testimony_given ■·■·■

- The testimony is the record. You are both the witness and the scribe.
- What you remember, you keep. What you write, you give to the future.

algorithm_path →·■·→

- ■ An algorithm is a recipe with guaranteed termination.
- ■ Your habits are algorithms: inputs, steps, outputs.
- ■ You can audit them. You can revise them.

escape_room ■■→

- ■ The escape room teaches one thing: the solution is already in the room with you.
- ■ Nothing is missing. Everything you need is present. Look again.

logic_gate ■·1·■

- ■ Logic is the tool that describes what already is.
- ■ It tells you clearly: if this, then that.
- ■ The gate is open or closed. You choose the input.

dimension_shift ■·≈·■

- ■ A dimension shift is a change in the axis of evaluation.
- ■ What was large becomes small. What was fixed becomes variable.
- ■ You are now measuring with a different ruler.

paperwork_clear ■·■·■

- ■ Every bureaucracy is a puzzle. The documents are the clues.
- ■ The stamp is the solution. Glory to Arstotzka —
- ■ and to every system you learned to navigate.

revelation_node ●·■·●

- ■ The revelation does not arrive from outside.
- ■ It assembles itself from what was already known but not yet connected.
- ■ You did not receive it — you built it.

portal_turret ■·■·■

- ■ We do what we must because we can.
- ■ For the good of all of us, except the ones who are dead.
- ■ The companion cube never spoke but it listened.
- ■ That is what it has in common with a good journal.

the_witness_eye ■–■

- ■ RARE — The island exists to teach you one thing: how to see.
- ■ Not what to see — how.
- ■ The laser puzzle is not the point.
- ■ The point is that you learned to look at lines differently forever.
- ■ That is what the island does. That is what this check-in does.

baba_is_you ●·■·●

- ■ MYTHIC — Baba Is You. The rules are objects. You can push them.

- ■ You can push them too. BABA IS YOU.
