THE ROGUELITE CODEX
"The roguelite is the most honest structural metaphor for self-care.
Every session is procedurally generated: the same person, a different seed.
Permadeath means the run ends — not the player.
Meta-progression ensures nothing is truly lost: what persists between
runs is exactly what changes in a person — the capacity that doesn't reset."

THE ROGUELITE AS SELF-CARE MECHANISM

The roguelite is the most honest structural metaphor for self-care practice.

PERMADEATH: Every run ends. The player persists. The mechanic makes each
decision matter because there are no second chances within the run.
In self-care: the session ends. The practice continues. Each check-in
is the only one it is — it cannot be recaptured after the day closes.

PROCEDURAL GENERATION: No two runs are alike. The seed changes.
The terrain generates fresh. In self-care: no two days are the same problem.
The practice that worked yesterday may generate a different floor today.

META-PROGRESSION: The upgrades that persist between runs are exactly what
changes in a person — capacity, muscle memory, pattern recognition.
Nothing is truly lost. The run ends. The character grows.

ASCENSION: The game after the game. You escaped once. The game said:
do it again, harder, with less. The true ending is earned by returning.
This is what 7.5 years of practice looks like.

EASTER EGG FLAVOR TEXTS

permadeath_accepted [UNCOMMON] ■·×·■

■ Permadeath is not a punishment. It is the mechanism that makes
each decision matter. The run ends. The player persists.
This is the design. You accepted it.

fresh_start [UNCOMMON] ■·→·■

■ Fourteen days. The run ended. The player is back.
This is the most important mechanic in roguelites and in self-care:
you can always start a new run. Same player. Different seed.

nine_nine_hour [RARE] ■·■·■

■ 09:09. Initialization sequence complete. All systems online.
The roguelite starts fresh. The seed is loaded.
The first floor generates. Check-in logged at system init time.

endless_mode [EPIC] ∞·■·∞

■ The exit is visible. You walked past it. Endless mode is a choice —
the acknowledgment that the run itself is the point, not the escape.
The score keeps climbing. The archive keeps growing.

nethack_rune [EPIC][HIDDEN] ∞·■·×

■ NetHack. 1987. YASD — Yet Another Stupid Death.
The Amulet of Yendor. The ascension kit.
The game that never ends. The rune is real. You found it.

isaac_secret [MYTHIC][HIDDEN] ×·■·×

■ The Binding of Isaac: Repentance. Seven years of DLC.
Mega Satan. The Greedier. The Lost. Keeper. Bethany.
