LOT Pager — User Manual (draft)

Document: LOT-HW-01 / MANUAL · **Rev:** A (2026-11-13) · Draft — final text after DVT

In the box

LOT Pager · Wireless charging pad · USB-C cable · This guide

Meet your LOT Pager

- **Back:** polished stainless steel.
- **Front:** screen, camera, and one button — **COPY**.

1. Charge

Place the Pager **screen-down** on the charging pad. The screen shows `CHARGING` and the battery level. A full charge takes about 1 hour and lasts about 2–3 weeks.

2. Connect to LOT

1. On a computer, sign in at **lot-systems.com** → Settings → Devices → **Add LOT Pager**.
2. Press and hold **COPY** for 5 seconds until the screen shows `SETUP`.
3. Follow the steps on the website (choose your Wi-Fi). The screen shows `PAIRED ✓`.

3. Daily use

You see / do	What happens
Two short buzzes	A new notice from LOT, e.g. "Coffee time!"
Press **COPY**	The notice and the local weather are saved to your **Log** on lot-systems.com
Hold **COPY** 1.5 s	Takes a photo and adds it to the Log entry
Press **COPY** twice	Shows temperature, humidity, and air quality around you
Pick it up	Shows the last notice

4. Settings (on lot-systems.com)

How often notices come, quiet hours, buzz on/off, unpair.

5. Care

Wipe the polished side with a soft cloth. Splash-resistant, not waterproof. Don't heat above 45 °C. Recycle as electronic waste — contains a lithium battery.

6. Help
