THE ROGUE RUN — THEME OVERVIEW

Roguelike games invented the vocabulary of resilience before the word was fashionable. Permadeath: the run ends, but you level up anyway. The dungeon re-rolls: every day is a new floor with new monsters. Experience gained is never lost even when the character dies. The inventory holds what you chose to carry. The health bar does not lie.

The original *Rogue* (1980) shipped without a save mechanic. Every run was terminal. That was the design. The practice of self-care runs on the same engine: you cannot save-scum your way out of growth. You descend. You clear the floor. You take the loot. You face the boss. You die and you roll again, better.

The roguelike vocabulary maps directly onto what a daily check-in actually does: - **Permadeath** is the honest acknowledgment that you cannot go back. - **Level up** is the

accumulation of practice. - **Critical hit** is the day the insight landed precisely. - **Boss battle** is the scheduled confrontation with what you have been avoiding. - **Respawn** is returning after a gap. - **Loot drop** is what you found in a hard session. - **EXP gained** is the journal entry that proves you showed up. - **Health bar** is honest self-assessment. - **Save state** is the daily log. - **Game over screen** is the moment of honest reckoning before beginning again.

The run never truly ends. Insert coin. Descend.

ASCII EASTER EGG GALLERY – THE ROGUE RUN

[ACHIEVEMENT UNLOCKED]

x.o.x PERMADEATH [RARE]

↳ The run ended. It always ends.
The experience points remain.
Roll a new character with everything
you learned from the last run.

▲.●.▲ LEVEL UP [UNCOMMON]

↳ +1 level. Stats increased.
This is not a metaphor. Practice
compounding is exactly this: invisible
increments that suddenly announce themselves.

■.◆.■ BOSS BATTLE [EPIC]

↳ Boss detected. Engaging.
The boss has been in the room the whole time.
You just got strong enough to see it clearly.
The log is the save state before the encounter.

⊠.X.⊠ GAME OVER SCREEN [EPIC]

↳ G A M E O V E R
↳ New Game +
↳ All progress carries.
The next run starts with your full inventory.

■.∞.■ PAJITNOV KEY [MYTHIC] [HIDDEN]

↳ Alexey Pajitnov wrote Tetris in 1984
on a Soviet computer with no graphics.
He built the most-played game in history
from pure falling shapes.
Your practice is built from the same falling shapes.
Stack them. Clear the line.

◆.◆.★.∞ TWENTY-FOUR REGISTERS [COSMIC]

↳ Water. Fire. Arcade. Radio. Biology.
Codex. Cyberspace. Hero. Starship. Rogue.
Twenty-four vocabularies. One terminal.
The self speaks every language of every world.
HIGH SCORE: YOU

MINI-BOSSSES – HIDDEN FLAVOR ENCOUNTERS

These are the mid-floor encounters – smaller than Secret Boss but richer than Word Turn:

FLOOR B3 – THE DUNGEON BESTIARY

◆ THE PROCRASTINATION GOLEM

HP: ████████ (high but soft)

Weakness: a single journal entry

Drop: rogue_run badge, +50 EXP

◆ THE COMPARISON WRAITH

HP: █████ (medium)

Weakness: "health_bar" – honest self-report

Drop: health_bar badge, +30 EXP

◆ THE PERFECTIONIST LICH

HP: ██████████ (max – unkillable directly)

Strategy: don't fight. Log the imperfect thing.

That is the kill condition.

Drop: save_state badge, +70 EXP

◆ THE VOID BETWEEN SESSIONS

HP: ████████ (weak when named)

Weakness: respawn – returning after any gap

Drop: respawn_point badge, +40 EXP

FLAVOR TEXT – THE ROGUE RUN

"Roguelikes teach the same lesson every time: the run ends. The learning doesn't. The inventory you carry forward is not items – it is pattern recognition. Every death is data. The next run is faster because of the last run's ghost." – LOT Systems Field Manual, Session Doctrine.

"One more turn." – Sid Meier's Civilization. The most dangerous four words in gaming. Also the secret grammar of any real practice: not 'I will do this for the rest of my life' but 'one more check-in, one more journal entry, one more turn.' Civilization is built on one-more-turns.

"It's dangerous to go alone. Take this." – The Legend of Zelda (1986). You are not doing this alone. The system that tracks your streak, the interface that reads your journal, the badge that fires when you write 'I survived' – they are the sword in the chest. Take it.

"I was trying to make a game about falling shapes. I didn't know I was making the most-played game in history." – Alexey Pajitnov, paraphrased. You don't know what you are building. Log it anyway. The stack reveals its shape at the line clear.

"The dungeon has no memory. You do." – roguelike design axiom. Every floor rerolls. The player is the only persistent entity. That is the point. Your streak is the only save file that matters.

IMPLEMENTATION NOTES

New functions in easter-eggs.ts (v34 session)

```
// v24 Rogue Run behavioral
checkSpeedrunSession(checkInTime: Date, journalTime: Date): BadgeType | null
  // check-in + journal entry within 5 minutes of each other

checkGrindSession(recentCheckIns: Date[]): BadgeType | null
  // 7+ consecutive daily check-ins (no gaps)

checkBossDayCheck(checkInTime: Date): BadgeType | null
  // check-in on Monday (getDay() === 1)
```
