LOT COMPUTER ??? MANUAL

LOT COMPUTER — User Manual (draft)

```
DOCUMENT   LOT-COMPUTER / 06 MANUAL   REV A   2026-10-11
S-2        VADIK MARMELADOV
STATUS     DRAFT — written ahead of hardware; will change
```

In the box

LOT Computer · wireless charging pad · USB-C cable · this manual.

Know your device

- **Polished steel side** — the back. Rest it on the charging pad.
- **Screen side** — shows notifications from lot-systems.com.
- **Button** — the one control.
- **Camera** — lights an indicator whenever it is active.

Set up

1. In lot-systems.com open Settings and choose *Add device*; note the code.
2. Connect the device to your computer and run `lotctl provision`.
3. Place the device on the pad; it wakes and shows “Paired”.

Everyday use

Action	Result
Notification appears	read it; it clears itself after one minute
Press once	**Copy** — the message is saved to your Log tab
Press and hold	dismiss
Double press	take a photo (if enabled)

Charging

Place the steel side on a Qi pad. Charging starts automatically.

Care and safety

Do not open the body. Do not charge if the device is swollen or hot. Keep away from water until an IP rating has been tested (none is claimed yet). Camera: only photograph with consent.

Privacy

You can revoke a device in Settings; it then loses access. Sensor and button events are stored as Log entries you can read and delete.

Regulatory

Not yet certified. This draft makes no FCC/CE claim.
